

# SMF eCylinder

## Smart Mifare Intelligent Lockset

### Description:

The NSP eCylinder is perfect for the BTR and Sfr environment, providing family homes with a smart means of opening their front door. This intelligent eCylinder replaces your typical cylinder and allows the resident to activate their front door through card, fob and smartphone.

The NSP eCylinder can be accessed by all members of the family and through the app you are able to:

- Authorise temporary access to friends or family
- Monitor who and when people have entered your home
